JEAN D. JANVIER PRIMARY EXAMINER new and replacement drawings and/or amendments to the specification were supported in the Application as originally filed. For example, replacement fig. 5A shows, at the bottom poetion, the display of an advertising message in the front ad panel of the check. The Examiner wanted to find out whether or not this disclosure was originally supported since the other drawings depict the display of ads on the back portion of the employee's pay check stub...In reply, the Applicant stated that not only it is supported in the Application as originally filed, but also the specification never expressly recites where the ad is actually displayed. To this end, it will be helpful to show where "displaying an ad on the front panel of the check" can be found in the original specification to thereby avoid any potential 112, first paragraph issue.
